Slovenia  
Spain  
Vatican City State

**Description:**

Finstral makes windows with a PVC core. And we have been doing so for 50 years. What makes our windows so special? Because we do everything ourselves. From profile development and in-house production through to installation – we always offer our customers everything from a single source. With 1,600 employees and some 1,000 dealer-partners, Finstral is active in 14 countries, making it one of Europe's leading window manufacturers. A family business, its headquarters are to this day located in Unterinn above the city of Bozen. Finstral develops and produces window, door and conservatory systems in countless variations in its 14 production facilities – but always with PVC at the core.
