Description:

TTM - Thermo Tecno Management has been working in the field of technical insulation, especially in jacketing and cladding, since 1977. Thanks to our extensive sales network, we distribute insulations products for a wide variety of industrial applications in the global market. TTM is a sales representative for the most important technical insulations cladding and tape brands on the market, cooperatin also with company Coroplast, producer of technical adhesive tapes. We are a bridge which connects the manufacturers and the industrial processors. Furthermore TTM works as a converter and

can understand the technical evolution and the requirements of each individual project, in order to propose the most suitable products for solving all relevant issues. We can say that TTM not only sells insulation products, but thanks to the extensive knowledge of the market the company provides the most suitable solutions in order to satisfy final customer needs. TTM operates fast and flexible to offer the best solutions, in the shortest time possible, at the lowest price. This is thanks to an efficient stock management and also thanks to our location. Over the years, we were able to expand our operations extensively and successfully in the European market. Nowadays we operate not only in Europe but also on the other continents, we cooperate with the insulations companies and the final clients around the globe. TTM provides the customers with individual created solutions to solve their problems and issues, related to the technical insulation of refrigeration, air conditioning, heating, and plumbing systems.
